

Clark Forklift Part

Clark Forklift Parts - Currently, there are no less than 350,000 Clark lift trucks performing worldwide, and upwards of 250,000 operating in North America alone. With five main lines across the globe, Clark is proud to be one of the most expansive organizations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand-driven lift trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 distinctive designs of lift trucks, with parts covering more than 120,000 specialized items for all of its automated equipment. Your regional Clark Dealer is your total source for availability of all your parts requirements offered by Clark Totalift.

Clark's exceptional Parts Distribution Stores are conveniently situated in Louisville, Kentucky, which serves both their customers and sellers in North America, and Changwon, South Korea, which handles their Asian sellers and consumers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing companies. Motivated to provide the highest level of value and service to our clients, Clark remains on the leading edge when it comes to enhancing productivity and benefiting performance.

Clark Totalift has a really impressive worldwide support network. With over 550 locations worldwide, supplier representation in over 80 countries and 230 locations in North America, their high level of commitment to their clients predominates the materials handling market.

By revolutionizing the operator restraint system protection feature, Clark proudly remains a leader of modernization in the industrial equipment and automated lift truck industry. This exceptional dedication to safety is currently a customary feature on every lift truck.

Clark has a continual mission to possess the No. 1 quality system in the industry which is demonstrated by their dedication to ISO standards. Clark, is the first manufacturer of forklifts and lift vehicles to be globally certified with quality standard ISO 9001 in all of its production facilities. Also, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be ready for any number of environmental restrictions, thus placing them in a prevailing industry position.

Clark has selected the particularly economical and beneficial structure of "Lean Manufacturing" for its assembly plants and use of resources. This system was developed to acknowledge the most effective approaches of production facility management and ensuring maximum proficiency. Clark has completed this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and production efficiencies.

Clark's product engineers and suppliers communicate together to perfect the proficiency and excellence of their merchandise while minimizing costs. The contemporary value engineering agenda combines modern product improvement and provides superior customer support and service within the industry.
