

Meritor Part

Meritor Parts - The Meritor Company is a leading global supplier established upon one hundred years of tradition of service and quality. Meritor focuses on integrated systems along with several modules and parts to the original machine manufacturers and aftermarket equipment in the transportation and industrial trades.

Meritor values the requirements of their clients to guarantee their success while priding itself in the company's unique energy and believes this output of energy to be their competitive advantage in their worldwide operations. Meritor starts with a tradition that values diversity of individuals and their broad thought processes. Operating in 19 countries and hiring over eleven thousand two hundred people, Meritor promotes collaboration and innovation among a team of knowledgeable professionals.

By only employing future focused employees, Meritor strongly feels these top-caliber workers would be able to quickly get used to to changing environments and exhibit the performance and commitment needed so as to attain results in the competitive materials handling trade. The business empowers their teams to make sound business decisions in order to enhance the overall success of the company. In return, Meritor offers their workers various opportunities for personal and professional development.

Their Advanced Engineering team is at the forefront of components and system engineering that comprise drivelines, axles, suspension and braking systems designed for medium and heavy duty trucks, off-highway vehicles, buses, military vehicles and trailers. The Meritor Advanced Engineering team is growing. They opened a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives which represent the entire Asia Pacific region. This particular team is also responsible for supporting the needs of their global engineering employees.

The Quality team at Meritor is a dynamic and customer-focused group who is committed to ensuring optimum growth at their production plants and aftermarket distribution facilities that are situated on 5 continents and in 19 countries.

The supplier development network is specifically situated to support new business growth. Regional teams are supported by worldwide initiatives, quality systems and centralized specialties in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program promotes a data-driven, fact-based approach to decision making in each part of the trade. The DFSS or Design for Six Sigma ensures product reliability in each region. The team is likewise included transactional Green Belts who make use of Six Sigma tools to business methods and apply lean methods.
